

End of Life Notification

Date: June 28, 2012
EOL Reference: EOL210
Product Reference: HiRel Commercial Leaded

Dear Customer,

All of us at International Rectifier appreciate your continued use of IR's HiRel leaded products. HiRel showed our commitment to customer satisfaction and assured supply for our unique customers when we took over the management of these parts from our commercial group thus guaranteeing you continuous access to the exact same products you had qualified and used with success on many of your longstanding programs. We maintained all materials and processes saving our customers the expense and inconvenience of requalification due to obsolescence or even process changes. Thus, our initial effort was necessarily very broad in the products which we transferred to ensure a minimum of disruption to you and your end customers. After 2 years of additional data, and the end of the RoHs waiver is now on the horizon, we feel we need to start the process of removing those parts which have low activity/ sales in the last three years. Of course, if you do see a potential need for these parts, please contact us immediately and we can discuss options for supporting your needs into the future. When alternative parts cannot be identified, we will work with you to ensure continued support including; consider inventory staging, delaying EOL or removing from EOL, as your needs and your end customer's needs dictate.

Type of Change Notification:

Product discontinuance is due to low activity/sales.

Reason For End-Of-Life:

Product volumes do not warrant continued manufacturing.

Products Affected:
