

MT6252

Quad-band GSM/GPRS/EDGE platform

Rich features with very low power consumption for entry-level multimedia handsets

MediaTek MT6252 is a GSM/GPRS/EDGE SOC (system on a chip) for entry-level multimedia handsets. MT6252 combines best-in-class features with very low power consumption and delivers exceptional radio performance in demanding conditions. MT6252 supports MP4 video recording and playback, and also incorporates a resistive touch-screen controller. MediaTek's pre-integrated software considerably shortens design times for device manufacturers, too.

Features

- ARM® ARM7-EJ™ processor (104MHz)
- Quad-band GSM/GPRS/EDGE Class 12
- 400 x 240 (WQVGA) 262k display support
- 0.3MP image signal-processor
- USB 2.0
